Dear FCC:

Dear FCC,

I am one of 19 family members who are currently using TRAC PHONE as an
alturnitive to other cell phone companys.
The reason , I along with all other 19 family members didn't like the thought of
signing a contract. I also was in compliance with the payment system.

You must realize that not everyone can afford LARGE payments....And most won't
!!! I will no longer user the Trac Phone system if the prices are moved up.

I only keep my phone for emergency use.... I don't call up my friends to chit-
chat. Please reconsider this.... Charge the people who make interstate calls !
